## Projects

### MovieBook

A search engine for movies with different functions like saving your favourite ones(not almost completely finished).

- A beta version of the project was presented to the Hackathon Contest of Hack Bulgaria.
- The project was made by 6 people, including me.
- Github Link to the project - <https://github.com/MovieBook/Movie-Book>

### Hack Bulgaria and SoftUni tasks and projects

Mini-Projects and tasks from all of the courses of Hack Bulgaria and Softuni that I have attended.

- All of them are uploaded in my GitHub account - <https://github.com/VladislavAtanasov>
